

Sub 400 – Kit Subwoofer

Since 1968, Supravox manufactures loudspeakers that integrate the speakers of the brand. Today, Supravox offers a wide range of loudspeaker models that allow audiophiles to benefit from the legendary sound quality of the brand in traditional high-quality wooden formwork.

Experience and know-how Supravox also expresses itself on the realization of loudspeakers. We have done a lot of studies to test the possibilities of loudspeaker baffling.

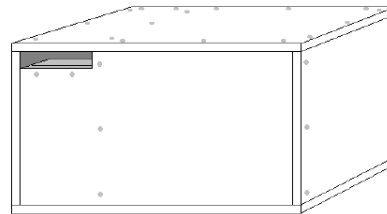

Low register boxes for 400-2000 (23 to 155Hz), for a system triphonic or home cinema.

We advise to use them with the modules of amplifications S230 (for the 400). Ideal complement of small Bass Reflex or closed for a cut-off frequency between 80 and 120 Hz.

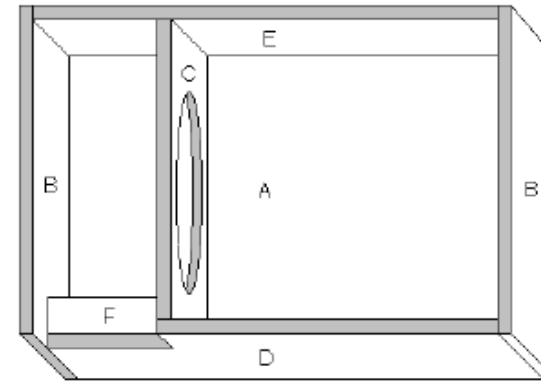

Response without filtering

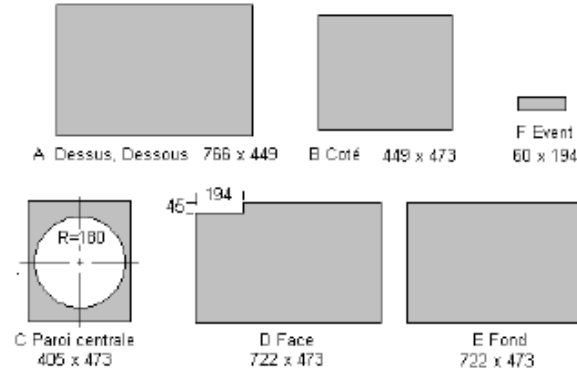

Active filter (fc adjustable from 40 to 150 Hz) with 230W S230 amplifier module suitable for low-frequency systems, available from Supravox.

DRIVE UNITS NOT INCLUDED

SPECIFICATIONS Drive units 400-2000

Efficiency: 96dB
Frequency response: 24Hz-4KHz
Impedance: 8Ω
Power max. RMS: 120W

Suspension: Canvas
Linear excursion: 10mm
Magnet Alnico: 3.5 Kg
Magnetic field: 1.6 T
Diameter HP: 404mm
Frame thickness: Alu 10mm
Diameter fixation: 382mm
Diameter drilling holes: 358mm
Depth holes: 215mm
